**DETAILED ACTION*****Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, 6, 9-12, 14, 17 and 18, drawn to a method of decreasing viral replication in cells by inhibiting the expression of a cellular protease, classified in class 514, subclass 44.
- II. Claims 1, 5-9 and 13-18, drawn to a method of decreasing viral replication in cells by inhibiting the activity of a cellular protease, classified in class 514, subclass 2.

Claims 1, 6, 9, 14, 17 and 18 are generic to Group I and II. Claims 1, 6, 9, 14, 17 and 18 will be examined to the extent that they read on the elected invention.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to methods which are not capable of use together and have different modes of operation and materially different method steps. For example, the methods of Group I operate by inhibiting the expression of a cellular protease, and utilize nucleic acid based inhibitors, which is different than the

Art Unit: 1635

methods of Group II, which operate by inhibiting the activity of a cellular protease, and utilize peptide based inhibitors.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

### ***Conclusion***

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
